My code is working but its not hiding all the sibling elements. Its just hiding the last 2 sibling elements in a list. Am I missing something here? First text Second text click me First text Second text First text Second text First text Second text My angular code is like this: var myApp = angular.module('myApp', []); myApp.controller('MyCtrl', function(\$scope) { \$scope.showDetails = false; }); A: You can not use the same scope variable for two different ng-show directives. If you want to hide more than one element, I recommend to use one element for that, for example: ca3bfb1094
