Buster Damashii, Buster Lupin, Buster Cohen, and Buster Sage are the members of what is considered the top level of S-Class Demon Busters. Each Buster has his/her own superhuman abilities: • Buster Damashii: He is able to utilize five different types of EX-hands. • Buster Lupin: He is able to utilize three different types of EX-hands. • Buster Cohen: He is able to utilize six different types of EX-hands. • Buster Sage: He is able to utilize eight different types of EX-hands. Even if you are not good at using EX-hands, I have researched all the EX-hands situations and have added the "All-in-One" for you. This will make your hand selection much easier. As seen in the pictures, if you don't like the full black suit, you can use the full blue suit version. It also has the same EX-hands as the normal version, except for him not having the "Super-Crazy Translucent Hand". In addition, the new cup put on the hands and the machine are not installed. The S-Class model is the only one not to have them. The accessories, that are black for the S-Class, were made translucent, which can be the color of your choice. Gal*Gun 2 - Anti-Demon Lasers: According to the art, the Anti-Demon Lasers were previously always in the center of the hand and were only able to be used for one hand.

However, since the Japanese version included a new mode where the hand of the weapon was moved to the "Front", this can no longer be the case. To prevent this, we have completely remade the animation. The weapon is now able to be moved to any direction. We have also added a new Item: The Heavenly Card Key item, which lets you control the character. "Heavenly card" is equipped while you are using the "Spooky Hand". You need to be level 10 to wear the "S-Class Demon Buster Suit". This adds the costume set to the Dressing Room. Notes: This costume is designed to work with the "Demon Buster" mode, which can be used after selecting the "S-Class Demon Buster Suit" from the Dressing Room. This costume only works for d41b202975

What's new in Gal*Gun 2 - S-Class Demon Buster Suit:

Gal*Gun 2 - S-Class Demon Buster Suit is a role-playing video game developed by Japanese video game developer Arms Software Co., Ltd and published by KOSMOS in Japan on July 26, 2015 for PlayStation Vita. It is a spin-off of their original Gal*Gun game published by NitroPlus in 2014. Contents The game is set in the S-Class Demon Buster universe which was created by the alien Chozo race. The protagonist Misaki Yumizuru is hired to be part of an elite class called S Class which protects the Earth from supernatural threats while performing various actions. Their armor is a high-tech suit which enables them to quickly and effectively attack their foes. However, the armor is also equipped with an ability to potentially kill its wearer if it is used up. Although the game is a spin-off of Gal*Gun, it is much more deadly and somewhat difficult. The player starts the game in a castle filled with Hell. Once the player is revived, there is one final option - to enter another castle filled with Heaven. The first week after release, a beta version of the game in Japanese was downloaded 30,000 times in a week, gathering 160.000 downloads per week. It sold more than 5.4 million copies by July 2015. Gameplay In Gal*Gun 2, the game is much more difficult than in the original Gal*Gun: Double Peace. For example, during a mission, the player can continue to freely move left or right throughout the stage, with limited time and conditions for avoiding harm. During this game, a player loses in a mission if he or she takes damage beyond 50% of one's "Hit Points". Plot The story of Gal*Gun 2, is set during the events of the original game, but in a new setting with distinct characteristics: While the original game was set in the fictional country Gal*Gun: Double Peace, the plot of Gal*Gun 2 instead takes place in the real-world country of England. This also explains the game's English localization name; "S-Class Demon Buster Suit" refers to a real person by that name. As for character introductions, most of the original game's cast returns, with some new additions and some returning characters obtained in a new setting. The protagonist, Misaki Yumizuru, is thus seen for the first time in the S-Class Demon Buster setting.
