As time goes on, Photoshop continues to evolve, so it may not be considered the best tool for beginners. TIP What does the term "Photoshop" stand for in real life? It's for Photomode image display. Adobe Photoshop Image Editor No tool does it better than Photoshop in enabling you to edit images. If you have the right version, it can open, save, edit, and print images. And it's got a host of features to make even the most challenging tasks easier. The interface is organized in layers. You can create a stack of these layers and then apply any of Photoshop's available editing features to them. When you need to make a change, simply select the features you want and drag them to the appropriate layer. Although version 12 and above of Photoshop is the most intuitive and powerful, version 12 includes many new features that are still too complex to learn during a brief tech tutorial. For this reason, we cover older versions of Photoshop as well as Photoshop Elements, a simpler program for beginners. To get started, open the image you'd like to work on in Photoshop and then click the File menu and then choose Open (Windows) or Open (Mac). When the Open dialog box appears, navigate to the folder containing the image you'd like to work on. The next step is to create a new document. Click OK when the new document appears or choose New from the File menu. (See Figure 12-1 for details on the menu.) Photoshop offers a variety of choices when it comes to setting up your image. You can choose a new folder, an existing folder, or the Desktop. However, the default is the new folder, which creates a new Photoshop document in that folder. You can delete the new folder at any time; the new document remains. **Figure 12-1:** Choose a new folder or the default folder, the Desktop. In addition to creating a new folder, you also have the choice to create a new Photoshop document. If you choose New, the program asks you to create a new image of any size. After you create the image, Photoshop asks whether you want to use the new document or an existing document as the template for the new document. You can create a new document from an existing document by selecting it. Select the existing document from the file menu, as shown in Figure 12-2. This opens a new document with the contents

Debenhams is Britain's leading department store, accounting for nearly a third of turnover. The company is in administration and is looking for a new CEO after the resignation of its previous CEO, Jim Clarke. Debenhams shares were up more than 6% on the news at midday (BST), but have since fallen back to levels around 6.4p per share. The high street store is the fourth largest retail chain in the UK, with a number of hypermarkets, branches and concessions. The company filed for administration on Monday after trading for the past two months in the black. Its previous CEO Clarke had only been at the helm for six weeks after a short tenure as deputy chief executive. He quit on Sunday to "pursue other interests", the company said. Sam Laidlaw, John Sunderland, Mike Clarke and Peter Bonham are now in the running to take over the running of Debenhams, with the bank BDO appointed to oversee the sale of the business. He said: "A transaction is currently under way with interested parties and progress is being made. "No final decisions have been made and there can be no certainty of success. The BDO will not discuss further details at this time." Mark Bird, the former chief executive of HMV, which was also put into administration in January, had been initially mooted as a possible successor to Clarke. A source said it was not Bird's "first choice" and it was unclear who else was interested. Other names linked to the role include Sir Stuart Rose and JLR's executive chairman, Mike Cammish. On Monday and Tuesday, Debenhams will begin an "intense" round of talks with the company's major shareholders, Cammish said. He added that the discussion had been "frank and constructive" and that both the government and creditors were supportive of a sale. However, Cammish said he did not rule out a long-term relationship with the government. Debenhams' stock, which had previously slipped to 6.6p after Clarke's resignation, ended the day up 4.8p, or 6%, at 6.4p per share, after falling to an interim low of 6.3p earlier. Hobby Lobby's New Corporate Policy While everyone was focused on the Supreme Court debate over the provision that forces companies that provide health insurance to their employees to pay for birth control, Hobby Lobby made a policy announcement. They are no longer for sale in the United States. We wanted to bring it to your attention because this is another sign that the religious right is not going to be bound by anything that goes against their beliefs. Despite losing the battle before the Supreme Court, they know that they can eventually win. This is about a corporation doing whatever it wants because they are a corporation and not a person. This is not about employees being forced to purchase the coverage. All that is required is for them to notify the company they are going to use birth control. If they use it, they pay for it. If they don't use it, they don't pay. They have no rights over it. This is part of a broader move by the religious right to retain all the perks that come with being a corporation and avoid all the laws that govern us. They don't want to pay taxes, have health insurance, driver's licenses, etc. They want to be able to "own" slaves. They are lawless and can ignore laws and regulations as long as they think they are being persecuted. Afertermo Afertermo, also known as Galleria Afertermo (Galleria Volterra d'Arte e Perfume), is a former gallery in Bologna, Italy, which was in business from 1781 to 1823. Located on the first floor of the Palazzo del Bargello, the gallery was founded in 1781 and was soon known as the first commercial gallery in Italy. The first director was Enrico Pandolfini, who was soon joined by Giacomo Boberi. The gallery specialized in antique paintings as well as tapestries, woodcarving, and majolica. In 1823, after almost thirty years in business, the gallery was closed as a result of the dismantling of the Papal States. The gallery was extensively restored between 2007 and 2009 by the local Consorzio Musei. References Sources La Galleria Afertermo & Giacomo Boberi-Batagione, 1782-1812, in «Filologia medievale», 2-3
